Energy Saving Services LLC

We are pleased to introduce **Energy Saving Services LLC**, a Consulting and Engineering company specializing in **energy applications** , We provide dedicated support to the **Industrial, Commercial and Residential sectors**.

Energy Saving Services LLC

AIM

That our clients achieve:

- ✓ Energy Efficiency,
- ✓ Energy Savings,
- ✓ Economic Savings and
- ✓ Improve Production Processes.

We have the objective of contributing to the **operational optimization of any company interested in improving its quality and competitiveness**, applying measures that improve its efficiency and **significantly reduce its energy waste**; providing research, training, advisory, consultancy, and engineering development services for the design and application of equipment, systems, and processes for the rational and efficient use of energy.

COLLABORATIONS

Our company has collaborated with and has been hired by the following international institutions:

- Development of energy efficiency studies at the national level, including Mexico and Latin American countries.
- Evaluation of energy-saving projects in thermal systems and cogeneration in the Mexican industry.
- Development of energy efficiency methodologies in systems such as: Compressed Air, Electric Motors, and Pumping Equipment.

EXPERIENCE

Our experience comes from the knowledge generated by the group of companies in which we participate, such as:

- Ingeniería Energética Integral, S.A. de C.V.
- Ingeniería Energética Sustentable, S.A. de C.V.
- Calidad y Eficiencia en Aire Comprimido, S.A. de C.V.

Companies with more than 28 years of experience in dimensioning, designing and the development of energy efficiency projects, systems and industrial processes, and renewable energy.

With the aim of expanding the field of action, Energy Saving Services LLC has been created and this is our goal to apply this vast experience to local projects.

Energy Saving Services LLC

GROUP EXPERIENCE

Our Group of companies has more than **28 years of experience** in the execution of **more than 1,500 projects** in energy applications in all types of processes, **electrical and thermal systems, automation, technological modernization, and renewable energies.**

We have worked on **energy efficiency projects** throughout the **Mexican Republic to Ecuador**, passing through all of **Central America.**

We currently have offices in **Mexico City, Guadalajara, Querétaro and Monterrey, and NOW IN MIAMI, FLORIDA**

We received the recognition of **the National Energy Saving Award in 2008 and 2013** and we have collaborated with more than **20 companies** that have also received this recognition.
